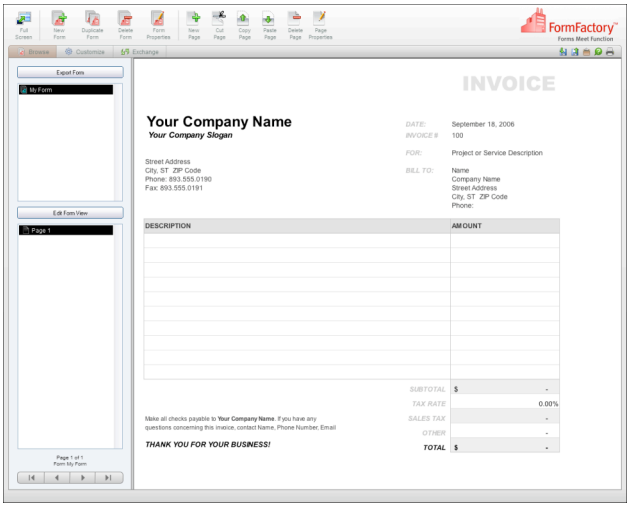
FormFactory™

for Appexchange

Forms Meet Function – Connected, Visually Rich Forms

Overview

FormFactory for AppExchange is a Rich Internet Application that enables salesforce.com users to create and publish dynamic forms populated with live salesforce.com information. FormFactory combines on demand forms with an easy-to-use WYSIWYG Form Builder, allowing end users of all abilities to present enterprise business data in professional business forms.



FormFactory is ideal for forms containing information stored in your salesforce.com account, such as quotes, invoices, sales order worksheets, pricing calculators, expenses, sales follow-up letters, etc. FormFactory enables you to:

- Populate forms with live salesforce.com information
- Create professional forms that combine text, tables, live data, graphics, and more
- Instantly publish your form templates for anyone in your salesforce.com account to use

FormFactory makes creating dynamic business forms simple.

Main Features

- Intuitive Form Builder: WYSIWYG editor allows you to construct form layout and information sources easily. Reuse pre-defined form templates or create your own custom forms from a wide variety of components, including text, tables, rich graphics, data, and more
- Live Salesforce Information: Automatically populate forms with live salesforce.com information (e.g., product lists, prices, addresses)
- Worksheets: Add tables, associate salesforce.com records with cells, and perform spreadsheet operations in your forms
- Auto Publish: Instantly publish dynamic forms for users in your salesforce.com account to connect to their data
- Export: Export forms to PDF, save to your desktop, or attach to any salesforce.com entity (e.g., accounts)

Key Benefits

FormFactory brings the power of creating and publishing forms populated with live information to the end user. Key benefits include:

- Eliminate the hassle of manually filling out business forms. Simply create a form template that connects to live salesforce.com information
- Reuse pre-defined form templates or create your own forms in minutes
- Publish forms for anyone in your salesforce.com account to use
- Generate forms on the fly right in salesforce.com. Customers, partners, and employees get the forms they need immediately
- 100% native to the AppExchange platform

The end result is a quick and easy way to create and publish professional business forms in salesforce.com.
